App Installation

- Once your fleet administrator has registered you as a driver, you will receive an SMS notification with a link to download the TruckX Driver App
- Your mobile device must have Bluetooth Connectivity. You can use most iOS and Android smartphones and tablets
- Download the TruckX Driver Application from the Google Play Store (Android) or Apple Store (iOS device)

New Driver Sign Up

- You will receive an SMS message with the your TruckX verification code
- Enter the 4-Digit Verification PIN on the new screen, create and confirm your 5-Digit Login PIN
- Tap 'Set PIN' - once the PIN Reset confirmation message appears, tap 'Continue'
- TruckX will synchronize and set up your data on your mobile device

9:41

Enter Verification PIN

Please enter the 4-digit verification PIN that you received via text message (SMS).

Okay

Driver Login

- As an existing Driver, open the TruckX Driver App on your mobile device
- Enter your registered mobile number, US DOT, and tap 'Continue'
- Enter your 5-Digit PIN and tap 'Login'
- TruckX will synchronize and set up your logbook data on your mobile device

The screenshot shows the 'Driver Login' screen of the TruckX app. At the top, the status bar displays the time 9:41, signal strength, and battery level. The app title 'Driver Login' is centered. Below it, the 'Registered Mobile Number' section includes a dropdown menu with a US flag and '+1', and a text input field containing '(777) 777-7777'. The 'US DOT Number' section has a text input field with '3705'. A large blue 'Continue' button is positioned below these fields. At the bottom, there is a 'Need Help?' section with contact information: 'Contact TruckX 24/7 at support@truckx.com, +1(650) 600-0008 and live chat at www.TruckX.com'. Below this, a disclaimer states 'By using TruckX ELD One, I agree to TruckX Terms & Conditions and Privacy Policy.' with links to the respective documents.

Logbook Dashboard

- Once signup is complete and your data has been synched, the TruckX Logbook Dashboard will launch
- At the top, it shows your name and ELD Connection Status
- Below this, you can find your current Duty Status and a tile with your current HOS information
- The section underneath shows today's Logbook graph
- At the bottom, you can find the navigation menu

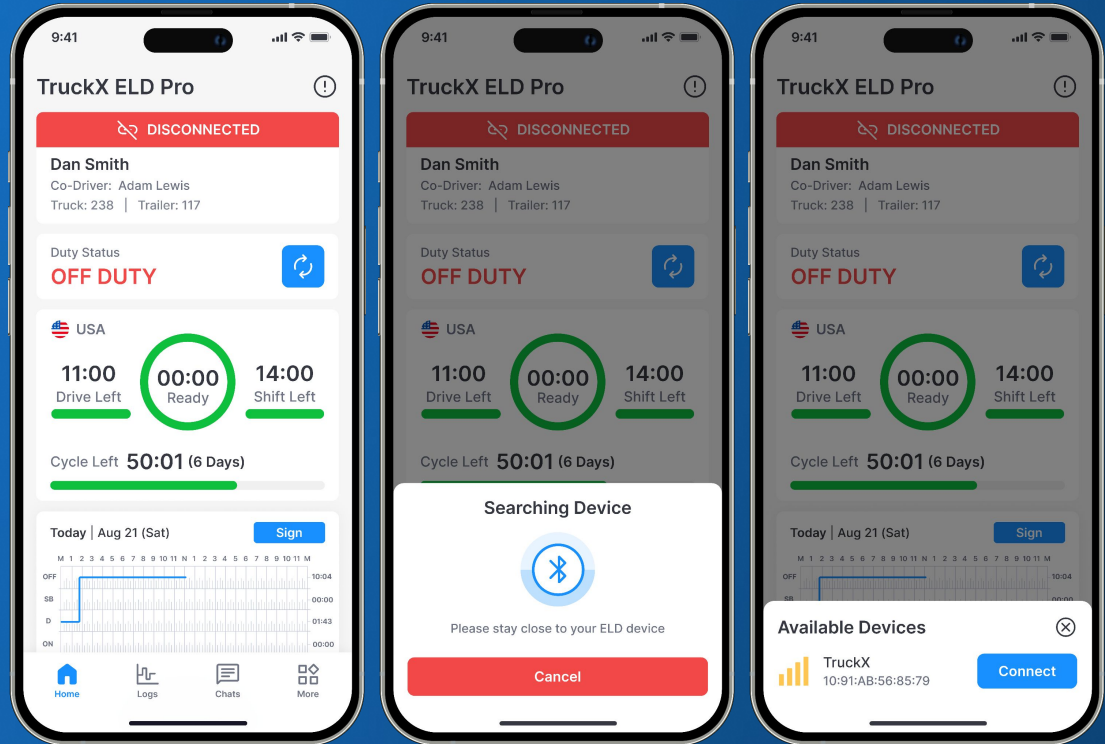

ELD Installation

- If needed, order additional TruckX ELD devices on www.TruckX.com
- Plug the device it into the diagnostic port of your Vehicle (if needed, use a complementary TruckX ELD PIN adaptor for different connector types)
- When the device is successfully powered, the green LED light will turn ON

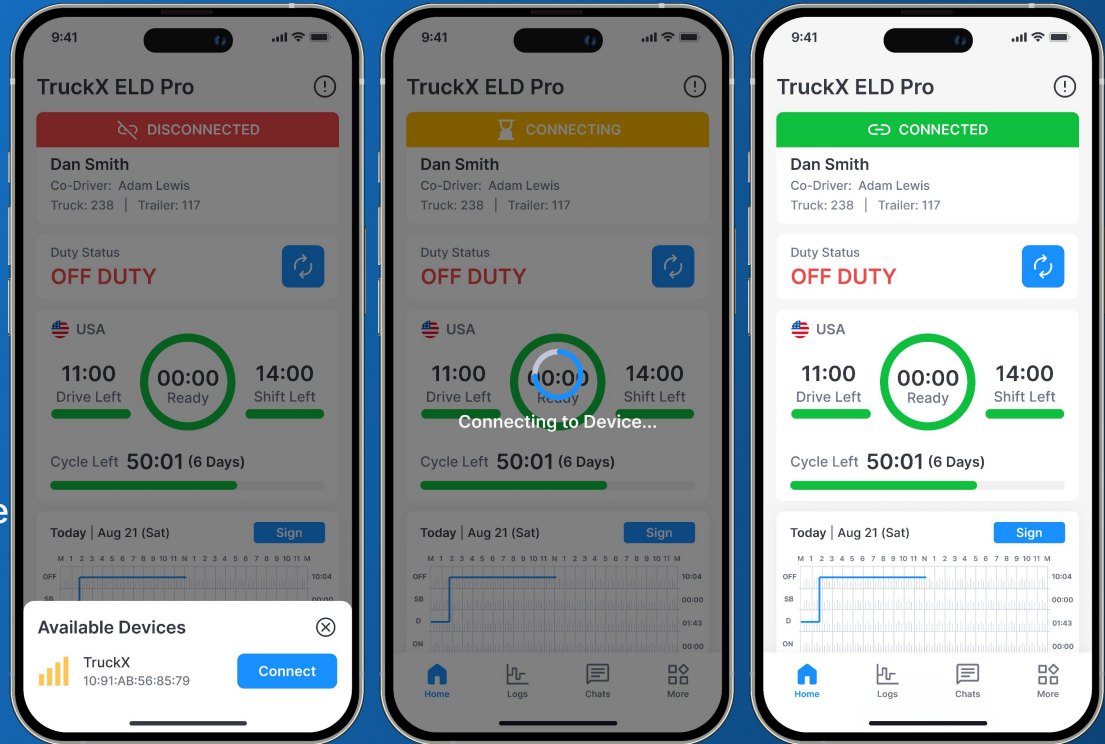

Connect to ELD Device (1)

- On the TruckX Logbook Dashboard, tap on the Connection Status button. You will be asked to confirm your Vehicle and Co-Driver details.
- The TruckX Driver App will search for nearby TruckX ELD devices
- If unable to digitally locate the desired device, please move closer to the diagnostic port, ensure the device is working properly by showing a green LED light and try to connect again

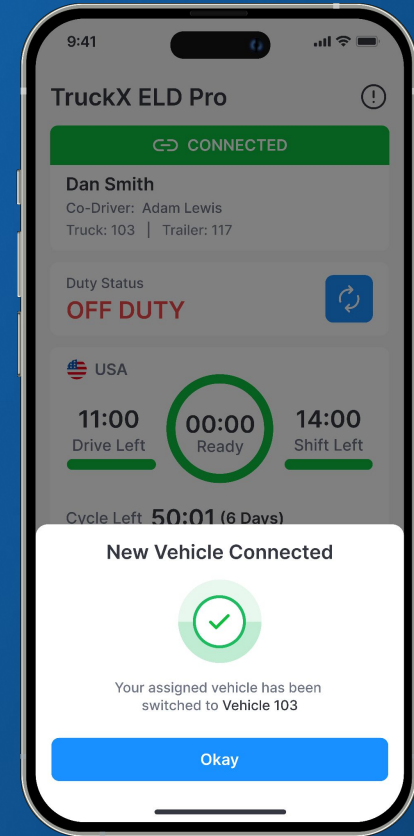

Connect to ELD Device (2)

- Select the correct vehicle from the list of available Devices by tapping 'Connect'
- The TruckX Driver App will connect to the device via Bluetooth
- Once successfully connected, the connection section on your Logbook Dashboard will turn green and the connected vehicle will be displayed
- If the connection fails, please make sure to stay close to the diagnostic port and try again

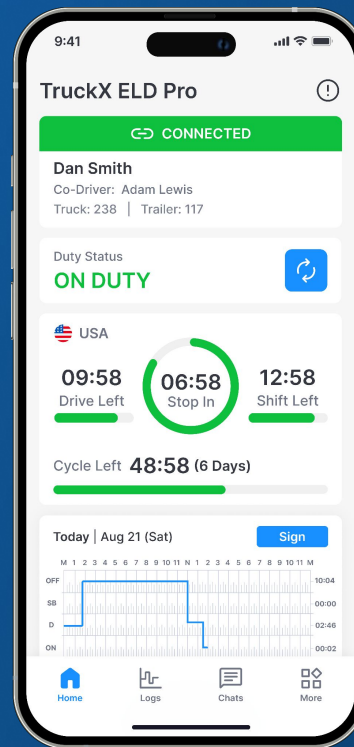

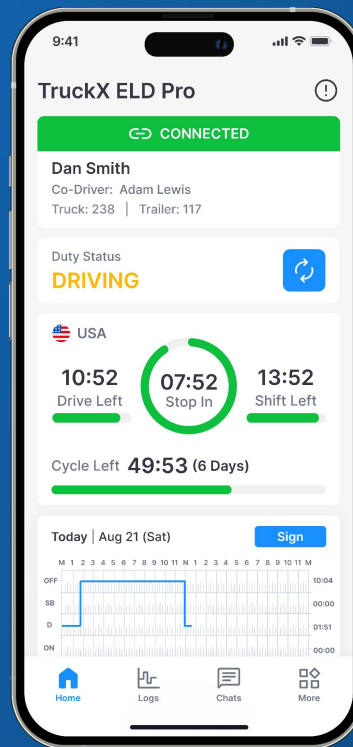

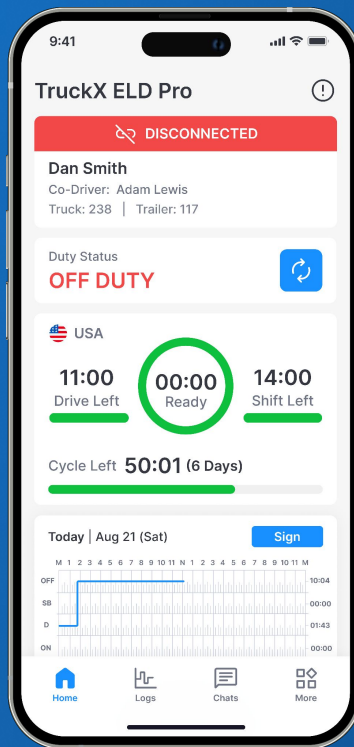

Connect to ELD Device (3)

- If the newly connected Vehicle VIN number differs from the Vehicle previously assigned to you, the TruckX Driver App will be automatically updated
- Please check to ensure you are connected to and driving the correct vehicle

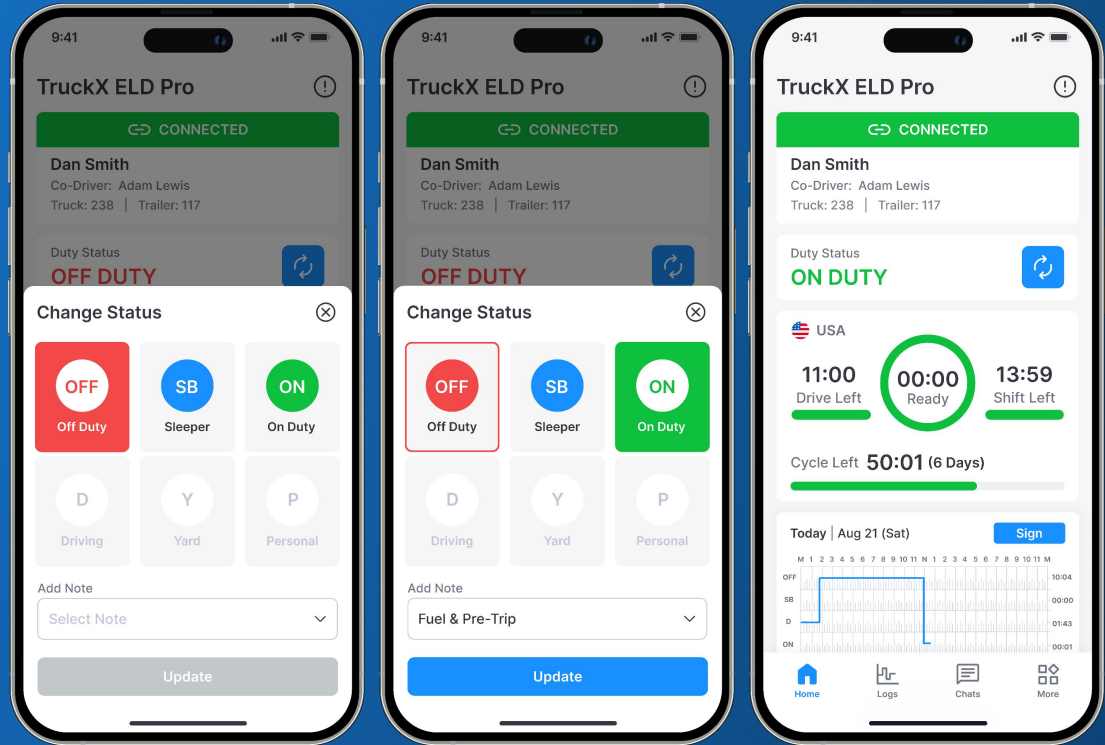

Driving with TruckX ELD Pro

- Start driving your Vehicle with the TruckX Driver App connected to the vehicle's ELD Pro device
- As soon as your speed reaches more than 5 mph, your Duty Status automatically switches to 'DRIVING'
- When the vehicle is stopped for more than 3 minutes, your duty status will automatically switch to 'ON DUTY'

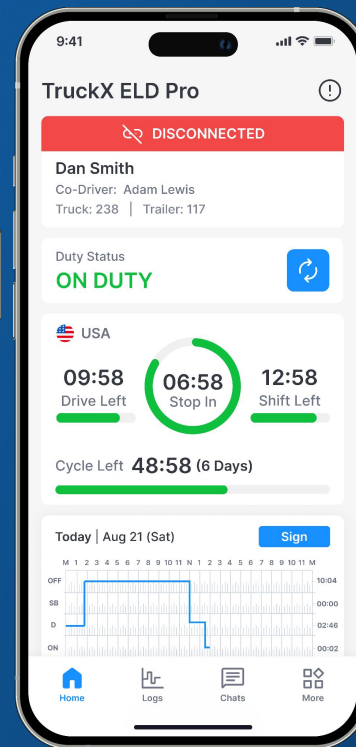

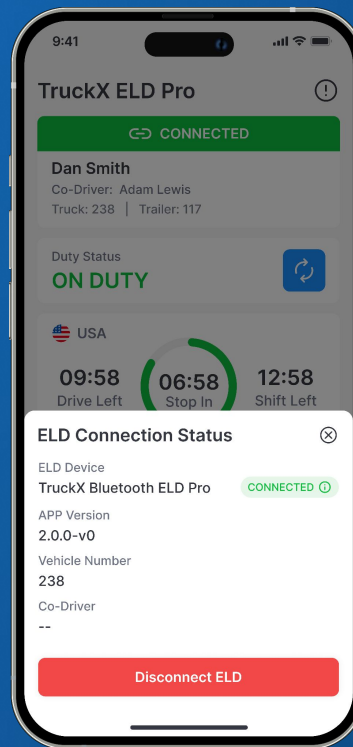

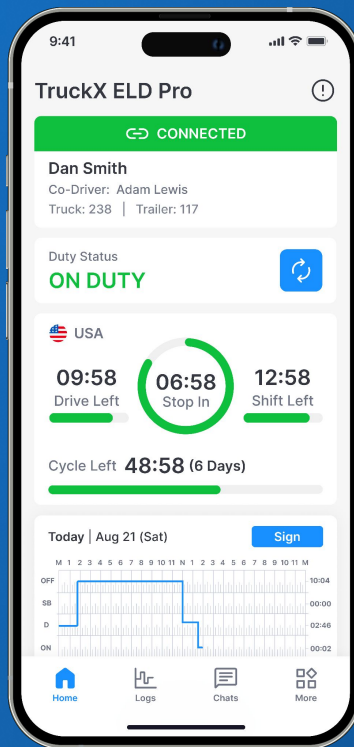

Switch Duty Status

- On the Logbook Dashboard, tap on the blue 'Change' icon next to your current duty status. The 'Change Status' menu will open, with your current Duty Status highlighted
- Tap on the available Duty Status you would like to switch to (Yard and Personal may be disabled by your Fleet Admin)
- Add an optional comment or select a standard note and tap 'Update'. Your Status tile on the Logbook Dashboard will now be updated to the new status

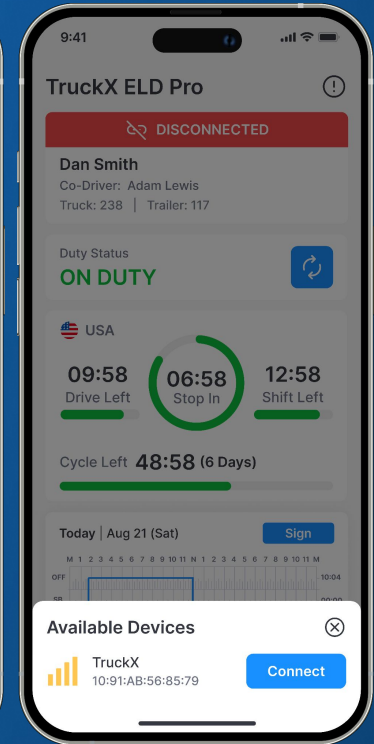

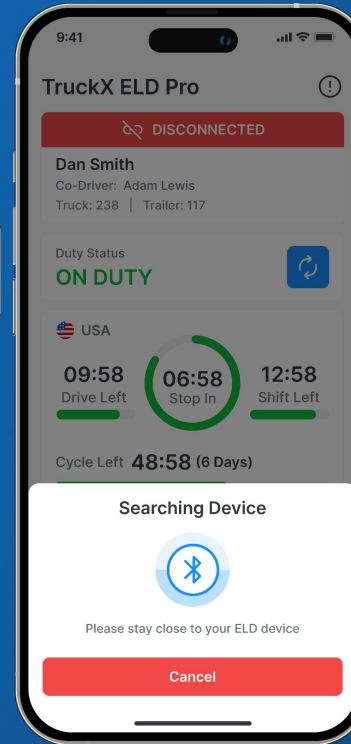

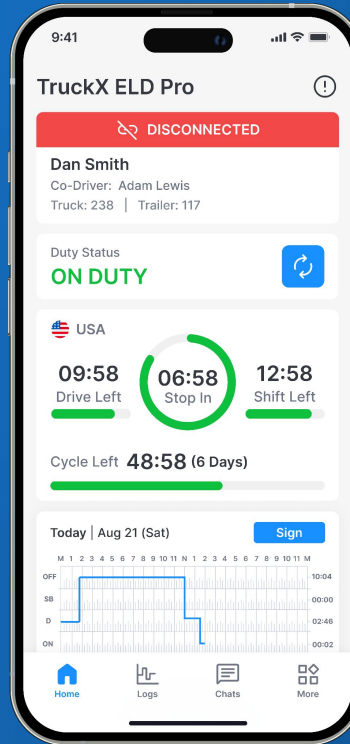

Disconnect from Vehicle

- On the Logbook Dashboard, tap on the green tile with your ELD connection Status
- Tap 'Disconnect'
- When successfully disconnected, your Status tile will switch to red and state 'Disconnected'

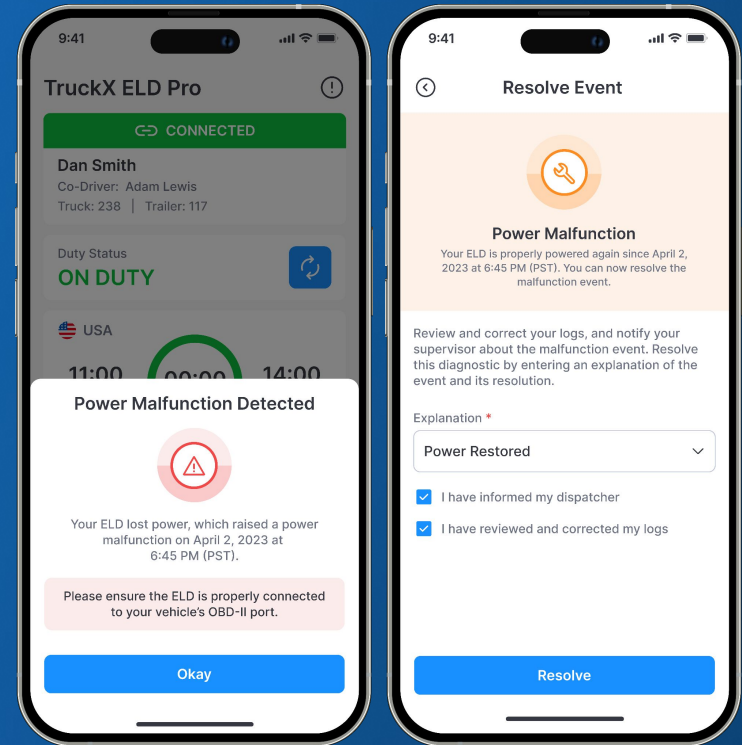

ELD Connection Failure

- If your mobile device had lost bluetooth connection with the ELD device, the status tile on the Logbook Dashboard will be red and state 'DISCONNECTED'
- To check, click on this tile: If no longer connected, the TruckX Driver App will search for available ELD devices
- Reconnect to the correct TruckX ELD Pro device

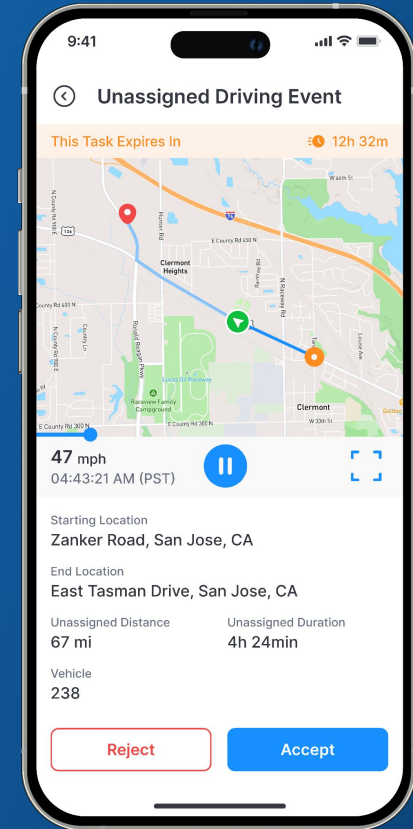

ELD Malfunction & Diagnostic Events

- When an ELD Malfunction or Diagnostic Event is detected, as soon as your vehicle is no longer in motion, the TruckX Driver App will trigger a notification
- A circled exclamation mark will remain in the top right corner of your Logbook Dashboard as long as any events remain active
- Tap on the exclamation mark to view event details and if applicable, complete required resolution steps: Generally notify your Fleet Admin, review your logs and manually enter missing data
- If the event resolves on its own, you will be notified accordingly

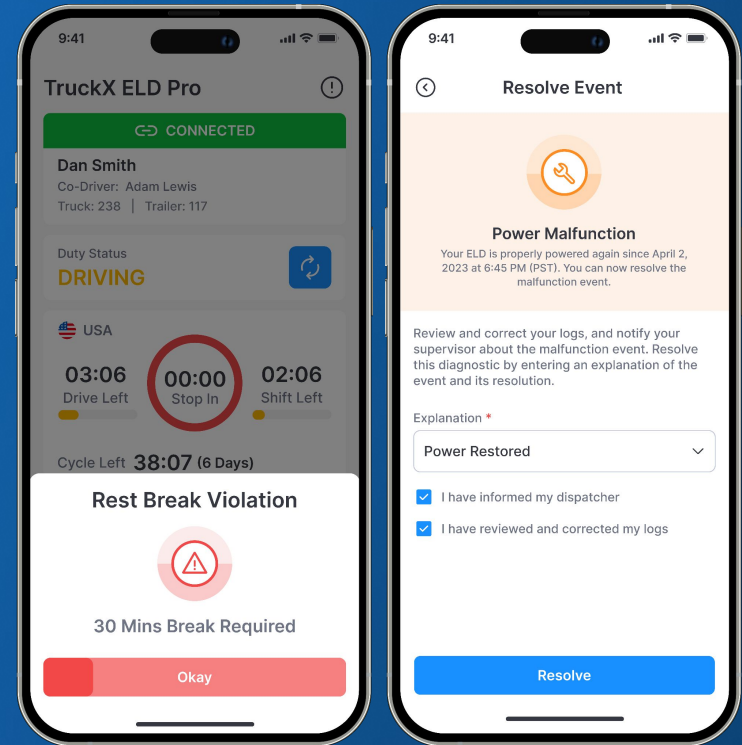

Unassigned Drive Time

- If the TruckX AI Algorithm detects an Unassigned Driving Event that is likely associated with your account, you will receive a notification about the driving event
- You can either tap 'Reject' if it was not you along with an explanation, or tap 'Accept' and your Logbook will be updated accordingly
- Alternatively, you can opt to 'Respond Later' and the same notification will launch when re-opening the TruckX Driver App

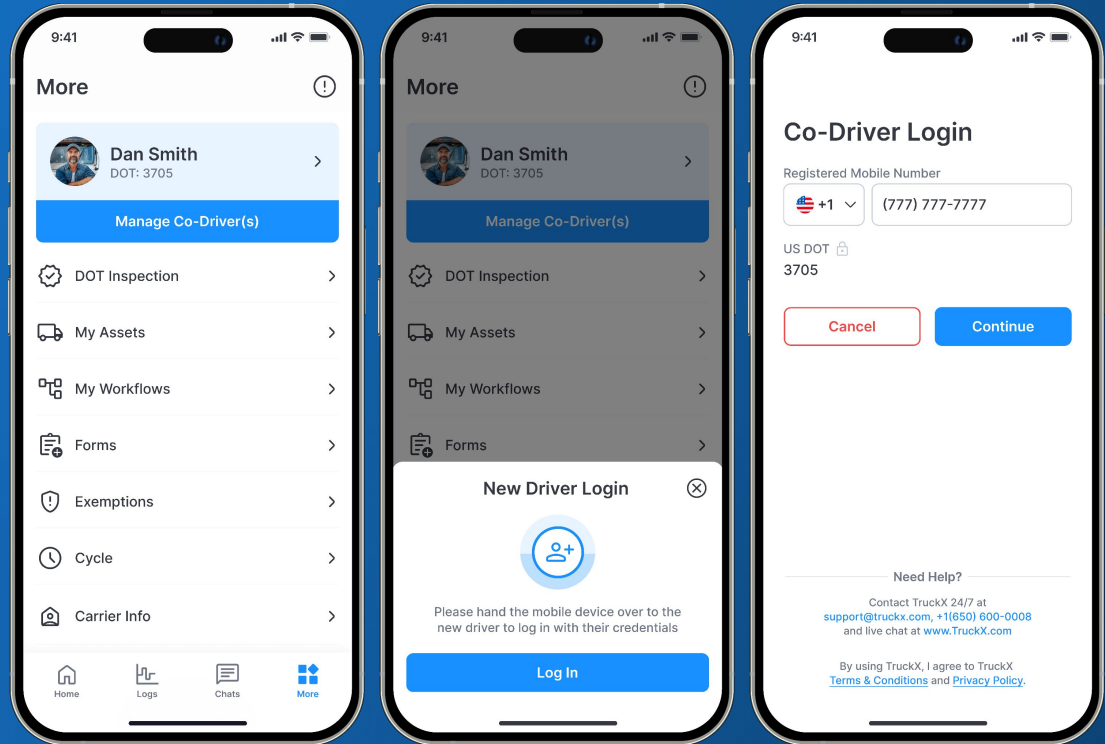

HOS Violations & Notifications

- As you approach an HOS limit, the TruckX Driver App launches a series of reminders and warnings to alert you of the upcoming HOS violation
- In case of an HOS violation, you will receive a push notification that automatically closes while in driving mode
- On the Logbook Home Screen, you will see the 'Violation' icon on the associated Log Graph where time under violation will be marked in red. Click on the Log graph and you will see further details about the violation

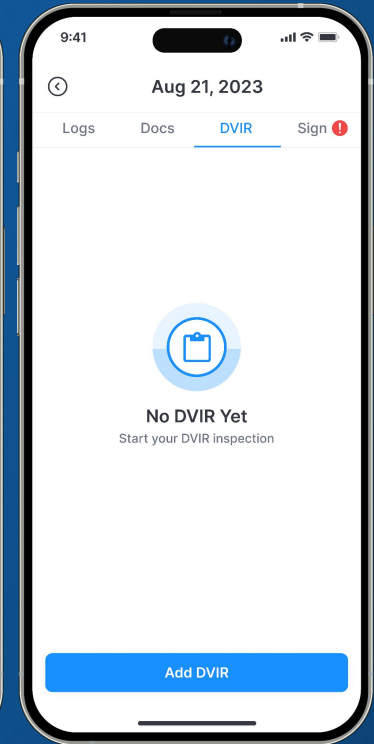

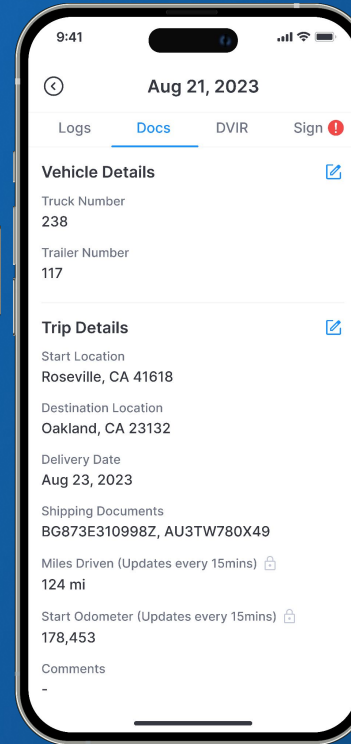

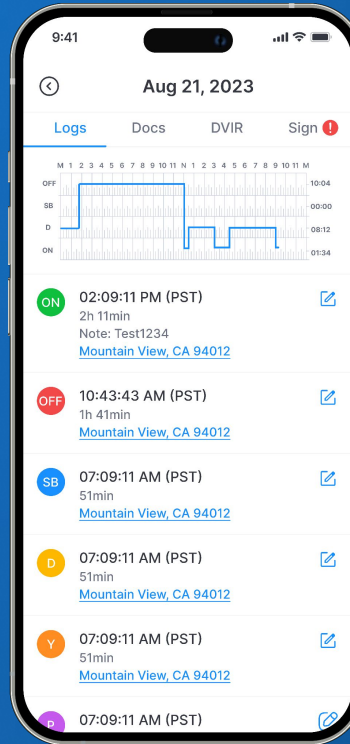

Add Co-Driver

- To add a Co-Driver, open the 'More' page from the TruckX Driver App Menu
- Tap 'Manage Co-Driver(s)'. Hand your mobile device over to the co-driver you want to add and ask them to follow the instructions to log in to the shared driving session
- Once added, both the current driver and Co-Driver will be displayed on the Logbook Dashboard and can be switched any time via the 'More' page

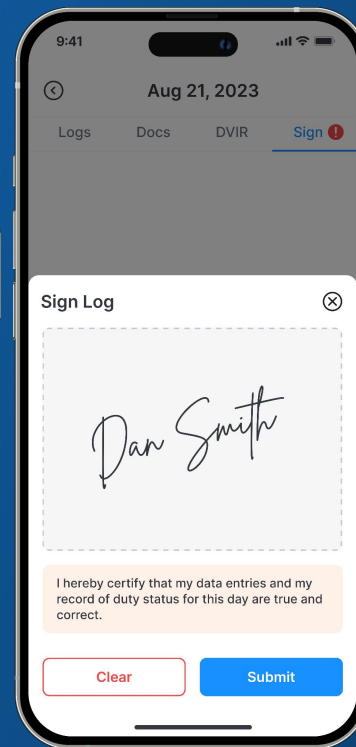

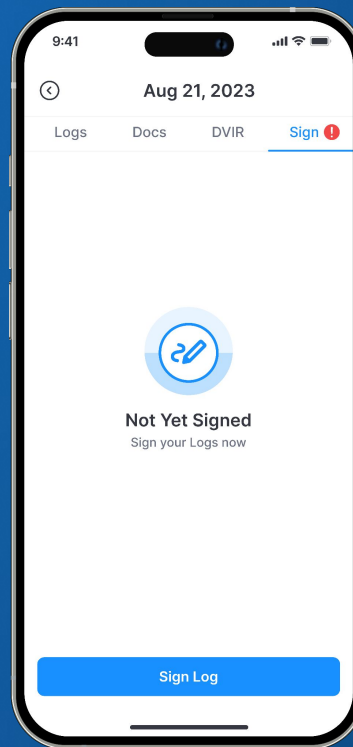

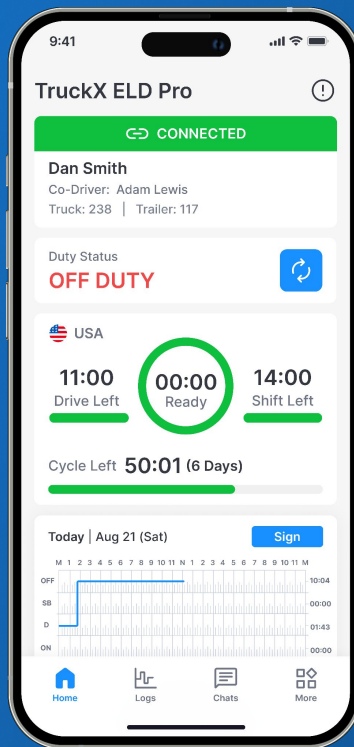

Review Daily Logbook

- To open your Daily Logs page, tap on 'Logs' in the TruckX Driver App Menu
- Review your logbook entries, duty status duration, start odometer and engine hours. You can click on the 'Edit' icon to edit your logs in accordance with FMCSA rules
- Navigate the tabs at the top of the page to access and edit your vehicle and trip documents, access the DVIR Workflow and Sign the Day's Logs

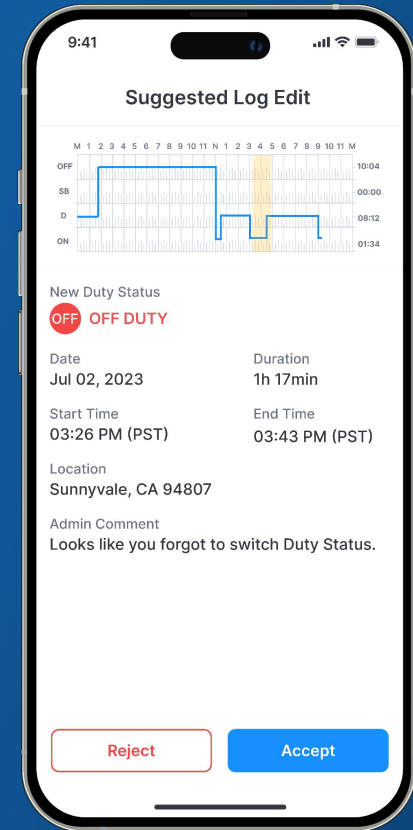

Sign Daily Logbook

- In order to sign your daily logs, tap the 'Sign' button on the logbook graph of daily logs that are missing your signature
- Alternatively, you can tap the 'Sign' tab on the 'Logs' page
- Using your finger, draw your signature in the entry field and tap 'Submit'
- Once signed, the 'Sign' button on the respective logbook graph will turn to 'Signed'

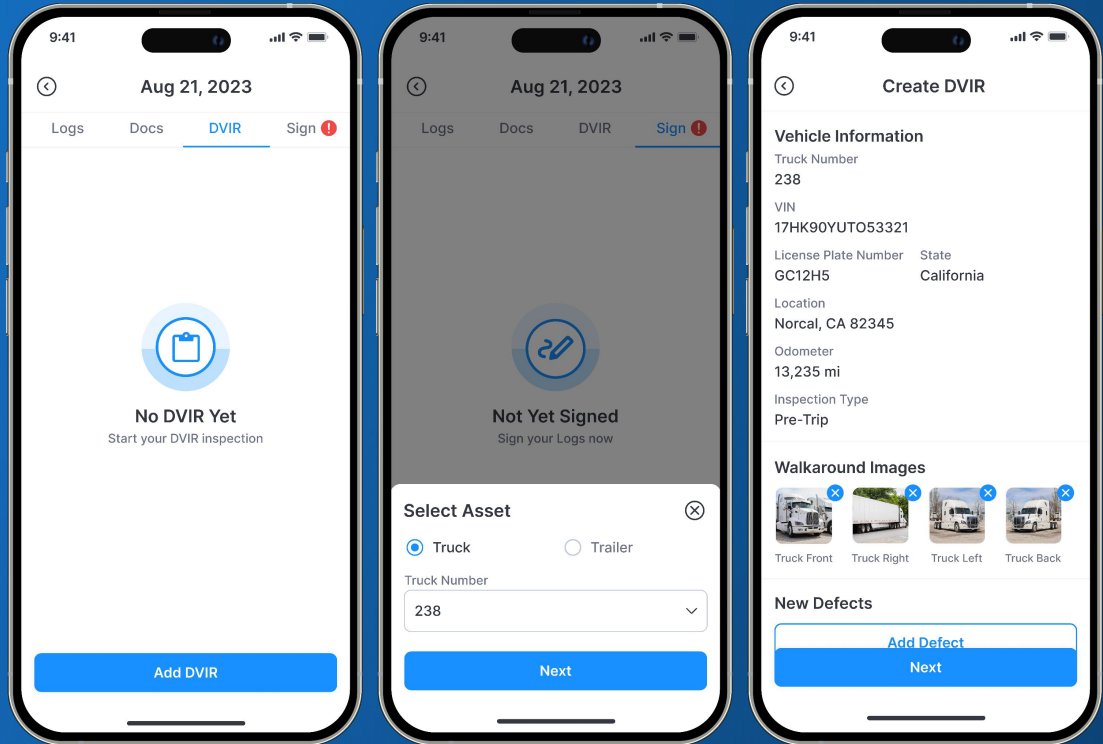

Accept / Reject Log Edits

- When your Administrator makes any changes to your Logs in accordance with FMCSA Rules, you will receive a notification when exiting the Driving Mode
- Review the suggested change in detail:
 - To accept the proposed edit, tab 'Accept' and your logs will be updated accordingly together with an edit annotation
 - To reject the proposed edit, tab 'Reject' and provide an explanation of why the suggested change is incorrect. Once rejected, there will be no change to your logs

Submit DVIR

- To submit a new DVIR, open the 'Logs' page via the TruckX Driver App menu, and select the 'DVIR' tab
- Tap 'Add DVIR', then follow the instructions to select the Pre-vs. Post-Trip DVIR type and asset for which you would like to submit the report
- If any pre-existing defects are unresolved, they will be automatically listed. You can add walkaround images and defects, then sign and submit

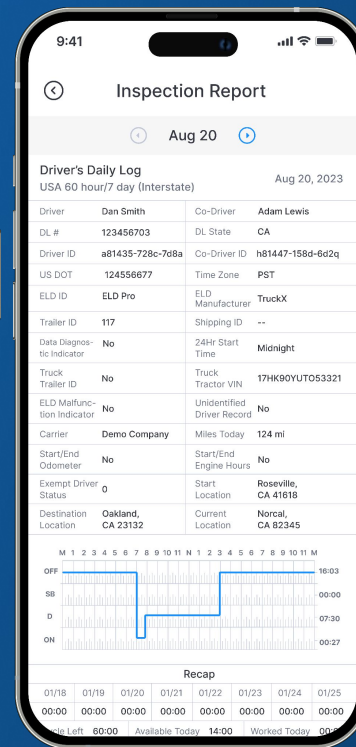

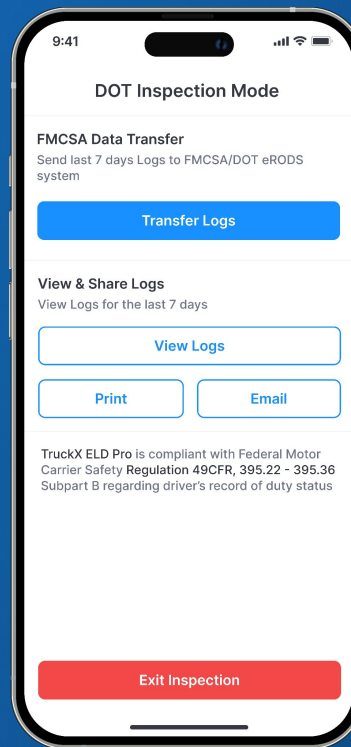

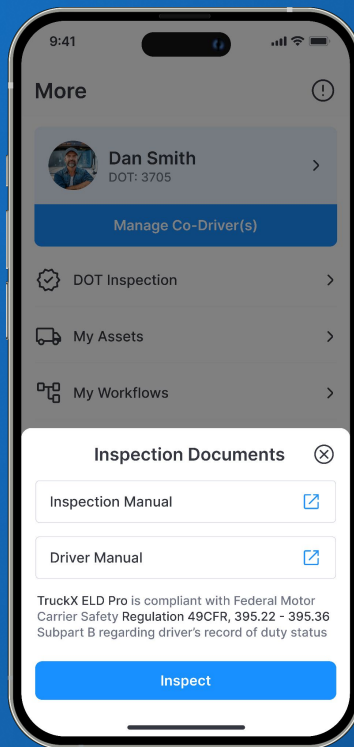

Start DOT Inspection

- To begin a DOT inspection, tap on 'More' in TruckX Driver App menu
- Tap on the first tile named 'DOT Inspection'
- Tap 'Start' to begin Inspection and hand your mobile device over to the inspecting Officer

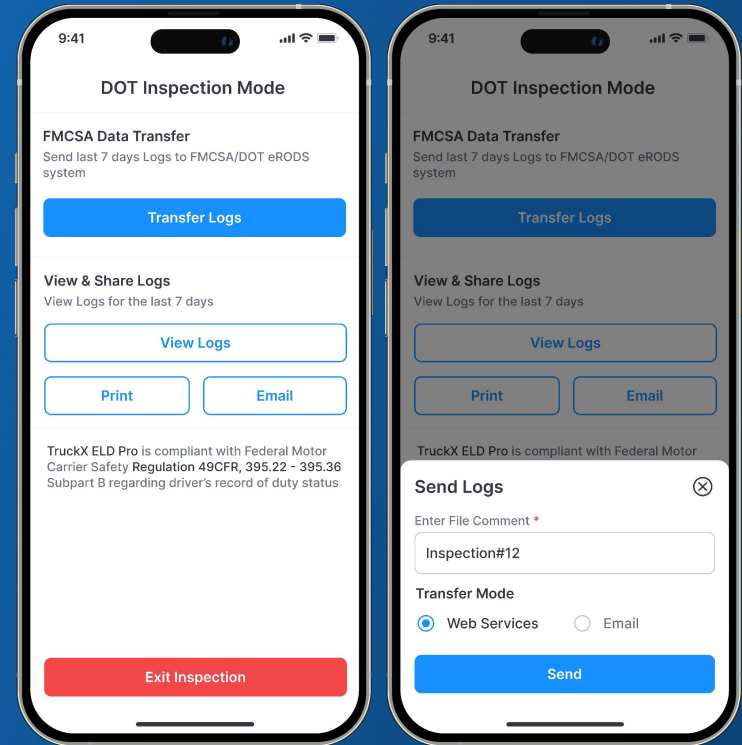

Show Inspection Report

- Once the DOT Inspection has been started, enter the DOT Inspection Mode by tapping 'Inspect'
- On the Inspection Page, the officer can either tap 'View' to visually inspect the last 7 days' logs, conduct an FMCSA transfer, print or send the logs via Email
- Tap 'Exit Inspection' to return to regular ELD mode

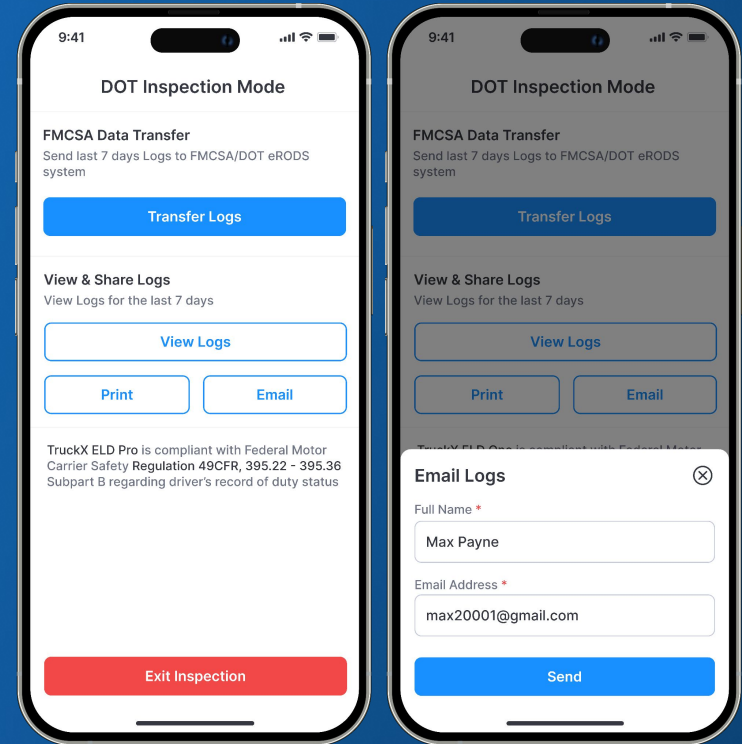

FMCSA Transfer

- To initiate an FMCSA Data Transfer of the last 7 days' logs to FMCSA/DOT eRODS system, tap 'Transfer Logs'
- Enter a file comment and select whether to transfer via Web or Email mode, then tap 'Send'

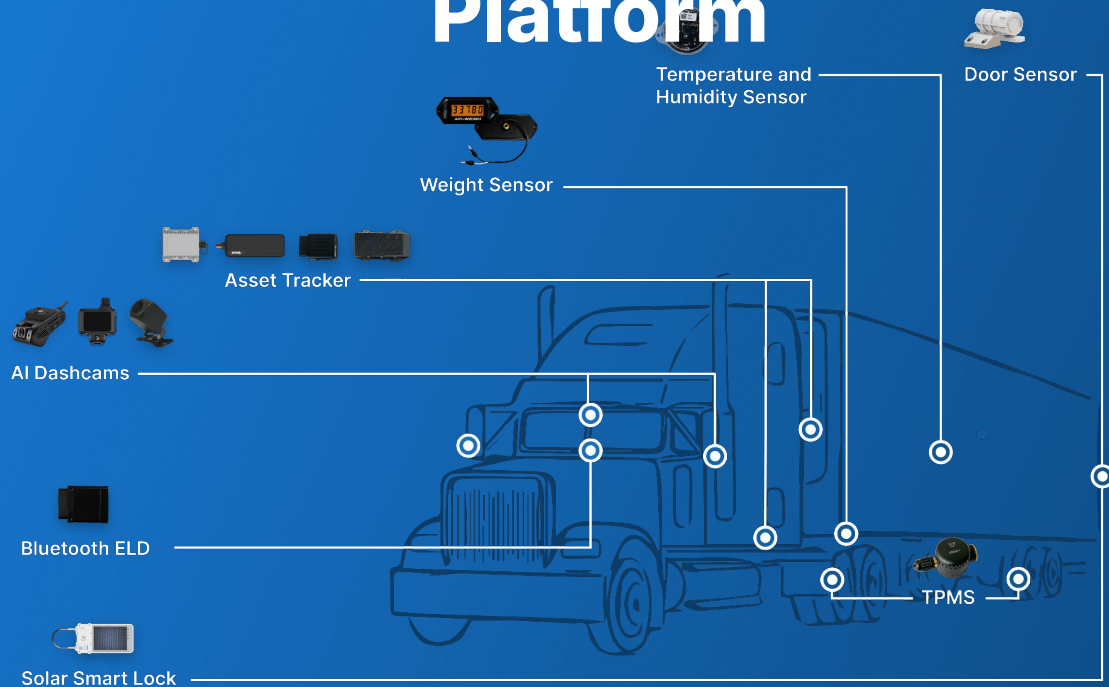

Email / Print Inspection Report

- To email the last 7 days' logs, tap 'Email'. Enter the recipient's name and email address, then tap 'Send'
- To print the last 7 days' logs, tap 'Print'. This will open the the PDF print view from where you can connect to a nearby printer and print the file
